Password protect

The DSA has informed us that there has been an increase in anti-MLM bloggers pretending to be journalists or joining private Zoom calls under the pretense of being an interested party to then publicly post a recording of the call on the blogger's account as they make anti-MLM statements.

We encourage everyone to protect their calls by requiring a password and only allowing invited parties to join a Zoom. In addition, any outreaches for an interview must be circulated through communications@arbonne.com.

We ask that you please notify us at best@arbonne.com if you observe any suspicious activity. Thank you for your understanding and your vigilance.

exarbonne Oops, don't let anybody infiltrate your zoom call because they might find out what scammers you are!... more

exarbonne @savannahmariex 🙌

antimlmeu If their business was so ethical and normal why not let everyone have access... 🤔
